DETAILED ACTION

Response to Arguments

1. Applicant's arguments see Remarks, filed 11/21/2007, with respect to Claims 1-6 have been fully considered and are persuasive. The rejection of above mentioned claims has been withdrawn.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher P. Whitham on Feb. 26, 2008. The application has been amended as follows:

- (a) Claim 3, Line 11, replace -- operational control bits -- with -- operational code bits --

As explained to the Applicant, the amendment was necessary to overcome 112 antecedent issues.

Allowable Subject Matter

3. Claims 1-18 are allowed.
4. The following is an examiner's statement of reasons for allowance: Prior art of record fails to disclose among other limitations of independent claims, "...using a test port of said multiple core expander to receive both data values as well as instructional and operational codes including a dummy bit from a host computer into a multi-bit shift register." As pointed out by the Applicant, prior art of record disclose systems that require separate "instruction registers" and a separate "data register."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
